Survey 2016

Rationale

As part of the school's continuing commitment to maintain and improve Standards & Quality, this survey has been commissioned to elicit the views of stakeholders in Dalziel High School – pupils, parents and staff.

The survey relates to the quality indicators within ***How Good is Our School? The Journey to Excellence*** issued by HMIE and reflects the developing context within which schools now operate. Self-evaluation is a key process to determining how a school aims to improve and the quality indicators are a guide in that process. The results of the survey will assist Dalziel High School in improving its performance and raising achievement for all of our learners.

This survey is part of our triennial process, and revisits the areas examined in the 2010, and 2013, comparisons from which are laid down in this document.

The 2 aspects surveyed this Session are:

- **Ethos**
- **Management**

In order to deliver the best quality service, it is also relevant to survey:

- **Health and Wellbeing**
- **Customer Service Excellence**

These are closely linked with the aims of the school, which are:

- To make the best possible educational provision for the whole range of ability of the pupils entrusted to our care and to provide the means, through a wide range of educational experiences, by which pupils will be able to realise their maximum potential - personally, academically, culturally and physically.

- To promote knowledge and understanding and the development of a wide range of skills.
- To provide a curriculum which is in accord with national, regional and divisional guidelines, and which at all times, ensures that the needs and aspirations of the pupils are met.
- To instil a sense of responsibility and respect and to encourage the development of good habits such as honesty, punctuality and genuine effort.
- To provide a well-ordered environment in which effective teaching and learning can take place.
- To make the best use of staff and resources.
- To provide an effective communication and reporting system.
- To provide courses, formal and informal (where resources allow) for adults.
- To ensure equality of opportunity for all.
- To have a high expectation of pupil performance and to identify, and correct, reasons for under-achievement.

The results shown in the report record percentage responses rounded to the nearest whole number. The survey was conducted electronically and was made available to pupils, parents and staff. All parents were informed of the survey via the school newsletter and the school website, and were able to access it via the website. The following numbers within each group completed the survey:

- 724 pupils from across all year groups
- 193 parents
- 63 staff.

Please note that due to an error in the survey, space was omitted for Parents and staff to make comment on any questions. This will be rectified for the 2016 / 2017 survey.

Sample Comments from Pupils

The staff are good and expect some pupils to do well.

Some staff expect very high standards and some don't really care. Not consistent.

The school provides a good amount of opportunities for certain pupils.

Although opportunities are available roles like class captains don't do anything.

I feel I can speak to my English teachers but that's about it.

Yes, I can talk different members of staff.

Very clear aims for most of its pupils.

Some pupils feel that school staff don't consider or appreciate that pupils have other commitments outside of school which may also expect the same level of dedication. It is important that staff realise that time management when pupils begin working etc, is vital to pupils and they should work with them on completing tasks.

The school only targets academic pupils.

Recommendations

Following the collation and evaluation of responses from the survey, the following areas are recommended for inclusion in the School Improvement Plan for session 2016/17

- Review and update the current survey model. Also to look at the timing of when the survey is completed.
- To increase opportunities for involvement in school activities for class captains and prefects.
- To raise awareness of the Developing the Young Workforce agenda and the opportunities afforded to all pupils within the school.
