

English Department Online Work for S4 into S5

Higher Classes

from 20th April- 19th June

We plan to have pupils working on their **Higher Folios**, beginning with the **Discursive Essay**. This is a lengthy piece of work of up to **1300 words**, is usually done on an **ongoing basis**, and will involve them undertaking **many tasks**, including:

- **Studying online resources** we will **direct** them to, such as the **SQA Understanding Standards** section for Higher English Discursive Writing, which has **marked exemplars**. This will **build their understanding** of what a Higher Discursive Essay should **look like** and what it **should include**. We will also share the **criteria for marking** so they know **how their essay will be judged**
- Deciding on a **topic** to research for their essay, again using **online resources** to help, such as the **Issues Online website** which we will **direct** them to
- Deciding on their **angle** on the topic
- **Submitting** their **topic** and **angle** on it for **approval**
- Spending **considerable** time on **researching** the topic, using **various resources**- websites, newspaper reports, documentaries, news channels, etc. which we will give them **advice** on
- Taking **detailed notes**, which they can **submit for approval**
- **Structuring and shaping those notes logically** for inclusion in their essay
- **Planning** their essay- again, this can be **submitted for approval**
- **Writing** their essay- ensuring they are **avoiding plagiarism**
- **If the pupils have all reached this stage- Submitting the first draft** of their essay to be marked- SQA requires that only **one draft** of the essay is to be marked by teachers, so they **absolutely must make the changes suggested**
- **If the pupils have all reached this stage- Redrafting** the essay **very carefully**, as that will then be their **final draft**

- As regards an exact timeframe, it is hard to pinpoint exactly how long each stage will take when delivered remotely as opposed to in a classroom, and of course some pupils will take longer to complete each stage than others.
- We propose, however, to set overall deadlines for the various main stages-
e.g.
- **submitting their topic and angle on it**
- **research and notetaking**
- **planning**
- **first draft**
- **final draft**
